Instructions How to Get to Our Office

Google maps or GPS are usually not correct by giving proper directions to this office.

From Jacksonville - Take 95 South

The quickest way to get here is take 95 South all the way to the LPGA exit in Daytona Beach. It is very conspicuous, has DAYTONA BEACH written in large letters across the highway dividers. The Exit number is 265.

When you get off the exit ramp, you take the direction to “Holly Hill” going east towards the ocean.

The fourth traffic light is North Clyde Morris. Make a left here and drive all the way past the Twin Lakes Medical Center. Keep to your right and look for the second driveway on your right with a sign “Lakeside Professional Suites.” Our business name is listed on it as Lakeside Endocrine Associates.

Once you see the sign, make a right and you can then see the building ahead of you on the corner of the business park. The Building is marked “Lakeside Endocrine Associates.” Park near or in front of the building and come to Suite number 2.

From New Smyrna Beach - take 95 North

Coming from New Smyrna Beach, you want to take the 265 Exit and bear to your right. Make a right turn onto LPGA Blvd. going East.

The fourth traffic light is North Clyde Morris. Make a left here and drive all the way past the Twin Lakes Medical Center. Keep to your right and look for the second driveway on your right with a sign “Lakeside Professional Suites.” Our business name is listed on it as Lakeside Endocrine Associates.

Once you see the sign, make a right and you can then see the building ahead of you on the corner of the business park. The Building is marked “Lakeside Endocrine Associates.”

Park near or in front of the building and come to Suite number 2.
